FOR IMMEDIATE RELEASE
9 AM CST, April 22, 2009

NOW IS THE TIME TO SELL!

When thinking about selling your business, it's not what you sell your business for; it's what you put into your pocket after taxes. At the end of 2010, taxes on ordinary income & capital gain taxes will likely increase dramatically.

Therefore, if you are thinking about selling your business, now is the time to act. After the tax increases of 2010, business owners will be earning less money from the sale of their business, even if they sell it for the same amount.

Most business owners do not realize that it can take a year to sell their business. By starting the process now, the business owner can avoid higher taxes on the sale of their business than if they wait until later.

Sunbelt Midwest of Wisconsin has a proprietary process that helps buyers & sellers navigate through the transaction. For further information, please contact Ed Krajcir, Owner of Sunbelt Midwest, at (262) 901-0086, ekrajcir@sunbeltnetwork.com or www.sunbeltmidwest.com **-End-**
